

Report on Hands-On Workshop on Digital Electronics 10-02-2025

The Department of Computer Science, NAM College Kallikkandy, successfully conducted a one-day hands-on workshop on Digital Electronics on 10th February 2025 for the second-year Computer Science students. The workshop aimed to provide practical exposure to digital electronics concepts, fostering a deeper understanding of the subject among students.

The workshop commenced with an inauguration ceremony, where Dr. Shameer A P, Associate Professor and Head of the Department, officially inaugurated the event. Sri. Muhammed Shafi P, Assistant Professor, presided over the function. Dr. Haseeb V V, Assistant Professor, provided a brief introduction to the objectives and significance of the workshop, setting the stage for the hands-on session. Dr. Minimol V K, Assistant Professor, welcomed the gathering and highlighted the importance of practical learning in digital electronics.

The hands-on session was conducted by Sri. Sudheer Kumar, Master Trainer and Managing Director of REC Technologies Calicut. He provided in-depth training on various digital electronics components, circuit design, and practical applications. The session was interactive, and students actively participated by engaging in practical exercises and discussions. They gained valuable insights into digital logic gates, flip-flops, and other essential digital components.

The workshop concluded with a feedback session where students shared their experiences and expressed their appreciation for the practical knowledge imparted. The event was a resounding success, enriching the students' understanding and practical skills in digital electronics.

The Department of Computer Science extends its gratitude to all faculty members, resource persons, and students for their enthusiastic participation and contribution to the success of the workshop.
