

Seminar on Research Methodology in Computer Science

11- DEC -2024

The Department of Computer Science of NAM College Kallikkandy conducted a seminar on Research Methodology in Computer Science on 11 Dec 2024. The seminar aimed to shed light on various aspects of research in computer science, including its issues, challenges, and practical approaches, while fostering interaction between students and experts.

The program began with an inauguration by Dr. Shameer A P, Head of the Department of Computer Science, who highlighted the significance of research in advancing the field of computer science. Dr. Haseeb V V, Assistant Professor, presided over the function, emphasizing the importance of innovative thinking and rigorous methodologies in research.

Dr. Mini Mol V K welcomed the gathering with inspiring words, encouraging students to make the most of the seminar. The session concluded with a vote of thanks delivered by Sri Firdouse N, acknowledging the efforts of the organizing team, resource person, and enthusiastic participants.

The resource person, Dr. Reshma P K, Assistant Professor, MG College Iritty, captivated the audience with her unique presentation style. She discussed a wide range of topics, including:

- Key Research Areas in Computer Science
- Common Issues and Challenges in Research
- Innovative Approaches to Problem Solving
- Effective Research Methodologies

The seminar was interactive, allowing students to engage in lively discussions and ask questions related to their academic projects and career aspirations. Dr. Reshma's innovative approach to presenting the topics made the session both insightful and enjoyable for the attendees.

The seminar was a resounding success, providing participants with valuable knowledge and motivating them to explore research opportunities in the dynamic field of computer science.

The following key outcomes were achieved:

- 1 Enhanced Understanding of Research
2. Interactive Learning Experience
3. Improved Awareness of Research Trends
4. Encouragement for Academic Excellence
5. Collaboration and Networking

The seminar successfully achieved its objectives, equipping students with the knowledge, tools, and inspiration needed to excel in research and contribute to advancements in the field of computer science.
