ONE DAY SEMINAR ON THE TOPIC

IPR IN DEVELOPMENT OF SOFTWARE TECHNOLOGY AND INDUSTRY

The one-day seminar on the topic "IPR in Development of Software Technology and Industry" was successfully held on 5th January 2023. It was organized by PG department of Computer Science and IQAC in association with Maitexa Info Solutions LLP.

The seminar began with a keynote address by Mr. Muhammed Shafi, HOD of Computer Science department who gave a comprehensive overview of the importance of IPR in the development of software technology and industry. He highlighted the need for protection of software developers and their intellectual property rights, and discussed the various aspects of IPR law and its implications on the software industry. The function was inaugurated by College Principal Dr.Majeesh T.

The seminar also featured a panel discussion with professionals from the software industry, who discussed their experiences in the field and discussed the challenges they faced in the software industry. They also shared their views on the importance of IPR in the software industry and the need for stronger IPR laws in the industry.
